

Make an Ancient Greek Black-Figure Pot

You will need:

- A piece of card or art paper
- An orange crayon
- Black paint
- Washing up liquid
- Paint brush
- Cocktail stick

1. Take your piece of paper (it is good to put it on top of something like newspaper) and completely cover it with orange crayon. Don't leave any gaps!

2. Using a pencil, draw the outline of what you want to paint on your pot onto the now orange covered paper. You could do a person; Pegasus; a Greek god or goddess??

3. Put some black poster paint in a pot and add a squirt of washing up liquid and mix it up.

4. Carefully paint in the outline of your "figure". You can also add some of the decorative patterns from this page if you like.

5. Let it dry completely. Be patient!

6. Being very careful using the cocktail stick draw on the details of your figure so that it reveals the orange underneath.

7. You can cut your piece of paper into a pot shape if you want or just leave it as it is.
