

# Aadu Puli Attam (Goats and Tigers)

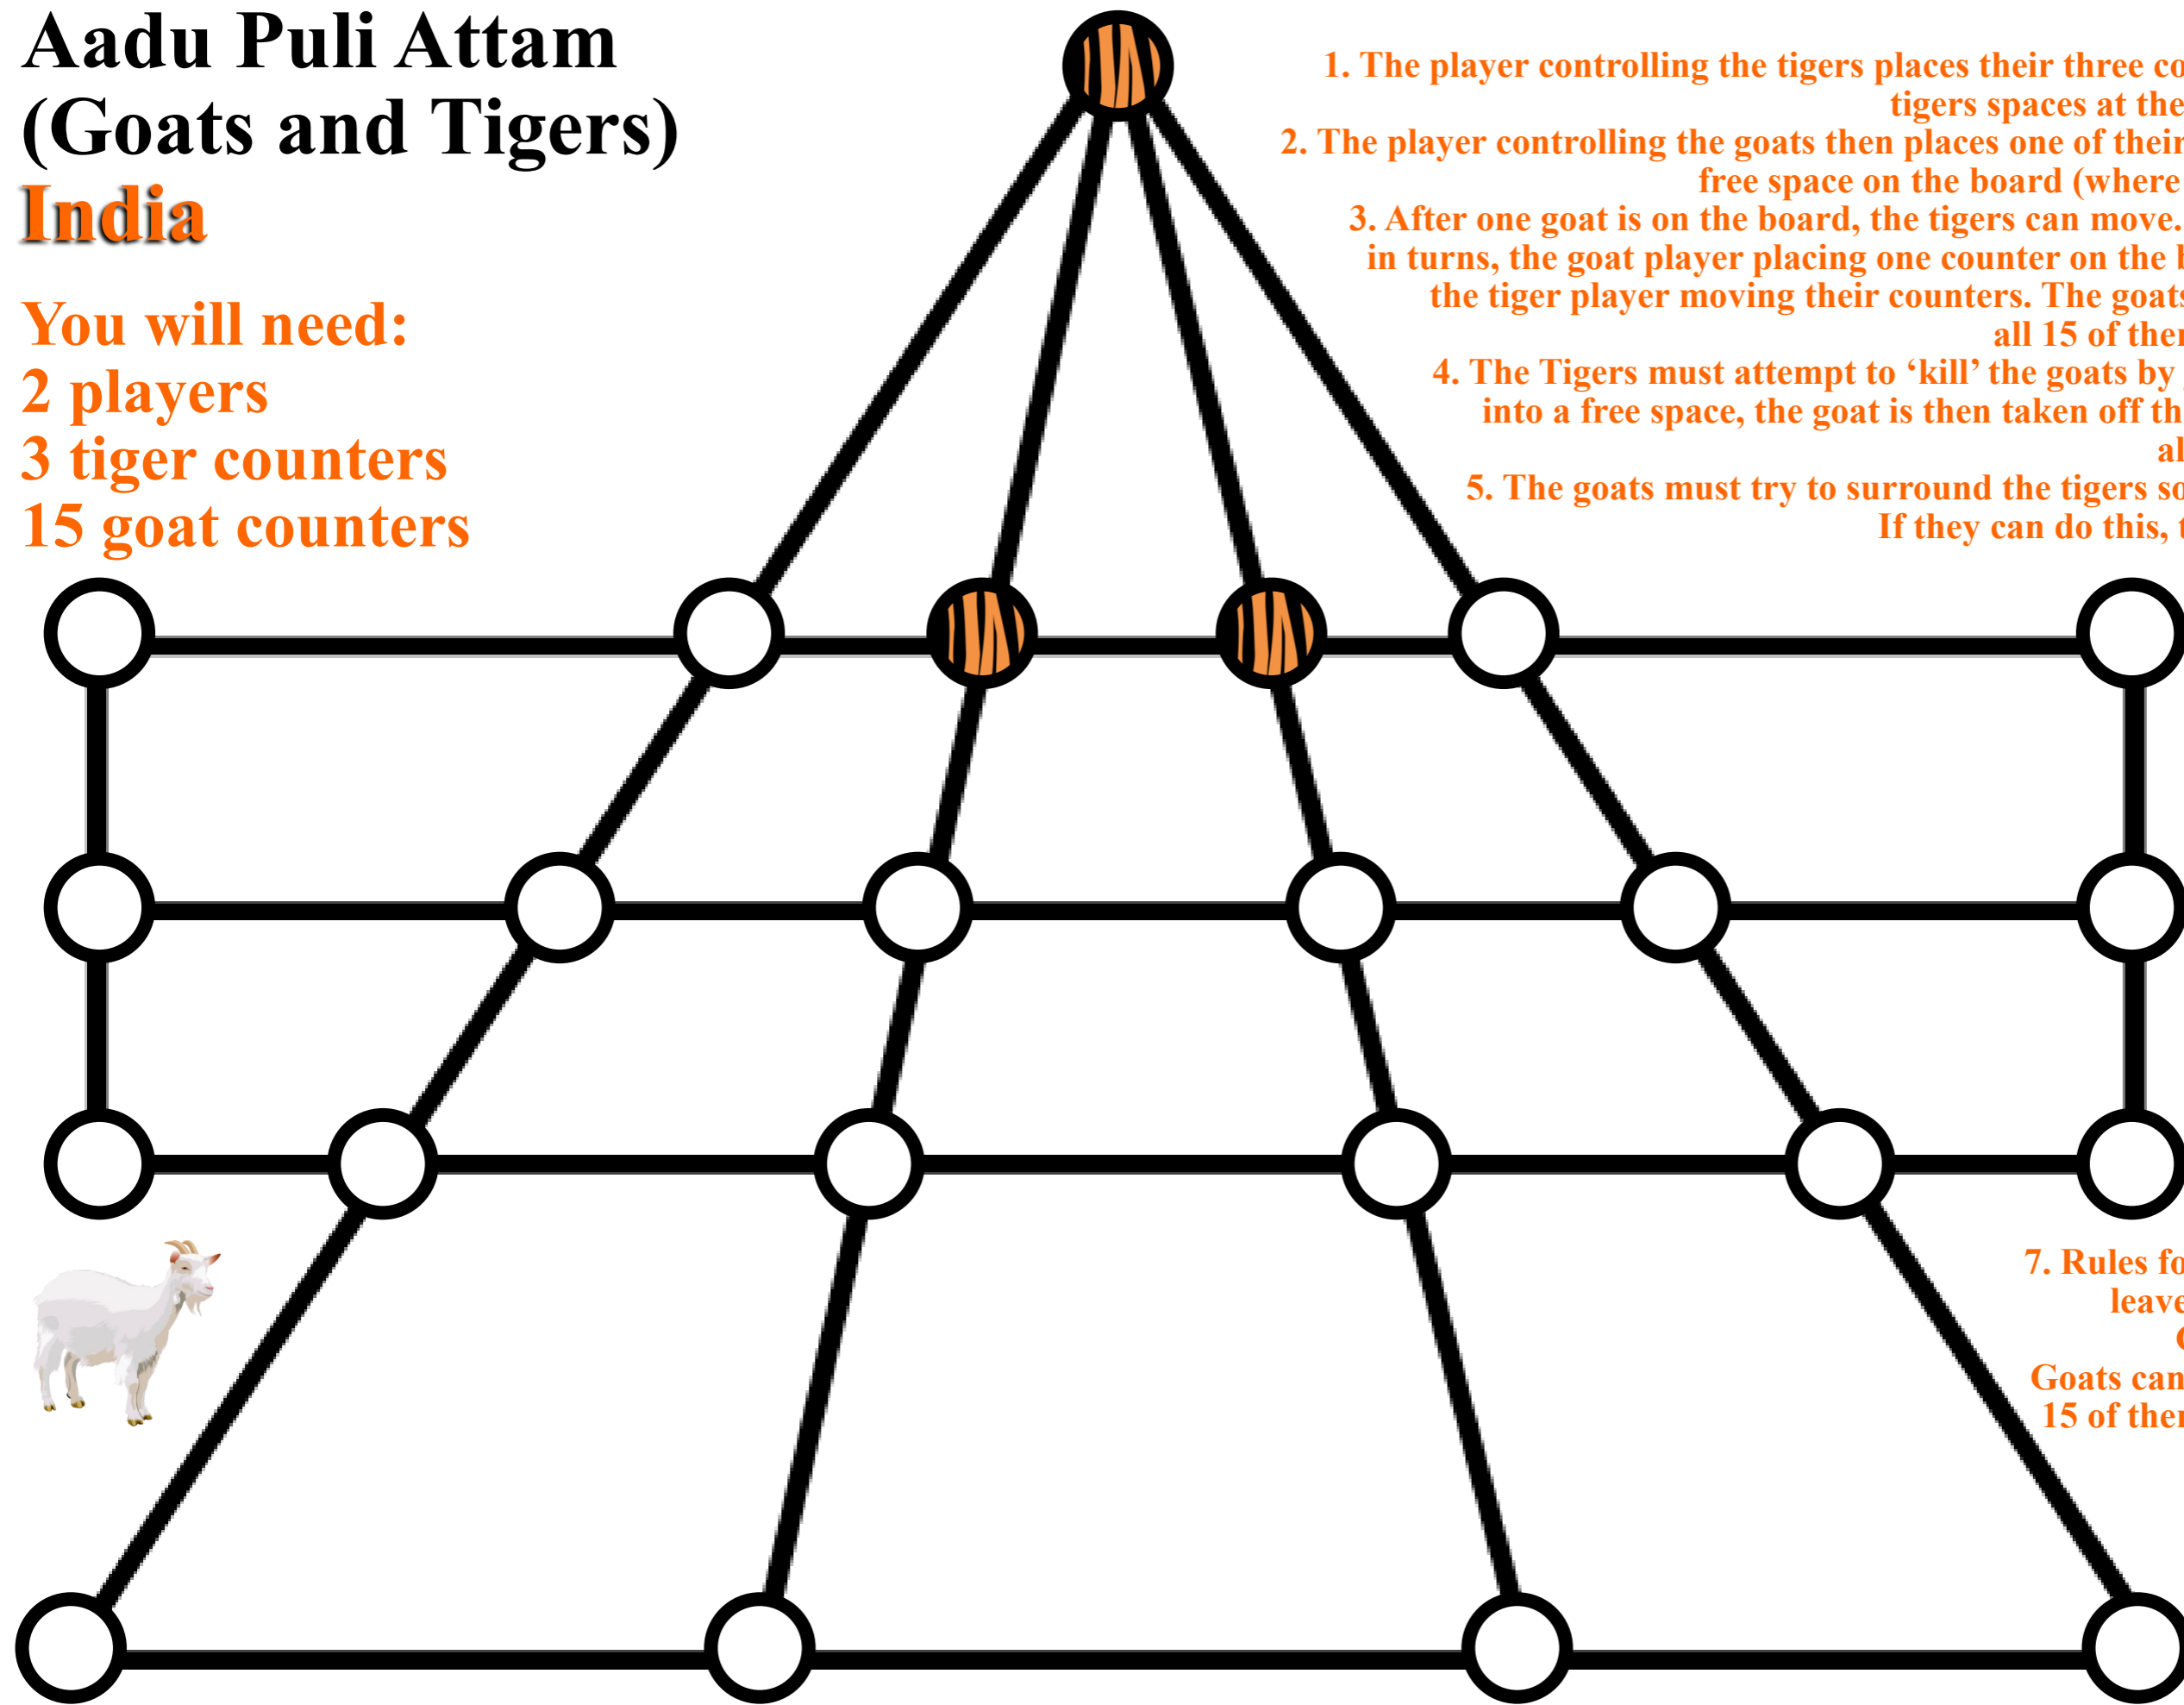

## India

You will need:

2 players

3 tiger counters

15 goat counters

1. The player controlling the tigers places their three counters on the three tigers spaces at the top of the triangle.
2. The player controlling the goats then places one of their goat counters on a free space on the board (where the lines intersect).
3. After one goat is on the board, the tigers can move. The players take it in turns, the goat player placing one counter on the board at a time and the tiger player moving their counters. The goats cannot move until all 15 of them are on the board.
4. The Tigers must attempt to 'kill' the goats by jumping over them into a free space, the goat is then taken off the board. If they kill all 15 goats they win.
5. The goats must try to surround the tigers so they cannot move. If they can do this, the goats have won.

6. Rules for tigers: Tigers cannot jump over other tigers. Tigers can start eating goats as soon as the game begins. Tigers can only kill one goat at a time. Tigers can jump in any direction.

7. Rules for goats: goats must leave the board if eaten. Goats cannot jump. Goats can only move once all 15 of them are on the board.

Good luck!
