Welcome from the Executive Dean

Celebrating 60 Years

In 2025, Durham University Business School proudly marks 60 years of excellence in business education, research, and impact. Since the launch of our first programme in 1965, we have shaped generations of leaders, advanced ground-breaking research, and built a strong global community.

Find out more at
durham.ac.uk/business/about/60th-anniversary

This year marks the 60th anniversary of our commitment to delivering world-class postgraduate education, and we are delighted to welcome you to Durham at such a special moment in our history.

At Durham University Business School, we pride ourselves on fostering a vibrant and inclusive community where innovation and academic excellence thrive. Our dedicated faculty, state-of-the-art facilities, and diverse student body create an environment that is both intellectually stimulating and personally supportive.

As you begin your journey with us, you will find numerous opportunities to engage with cutting-edge research, collaborate with industry leaders, and develop lifelong professional networks. We understand that pursuing a master's degree is a significant commitment, and we are here to support you every step of the way.

Our comprehensive resources from dedicated academic advisors and career services to a wide range of extracurricular activities are all designed to enhance your learning experience and help you achieve your goals.

**Professor Kieran Fernandes, Executive Dean,
Durham University Business School**

Why Durham University Business School

10th

in the UK

Financial Times European Business
School Ranking (2024)

Global recognition and connections

Durham University is ranked among the world's top 100 universities, in the QS World University Rankings 2026. Our Business School boasts a global alumni network of over 36,000 graduates spanning more than 140 countries, and a wider university alumni community exceeding 128,000 individuals. Our staff and student body represent over 100 countries, reflecting our commitment to fostering a diverse and inclusive environment.

Innovative learning and research

At Durham University Business School, we believe in getting closer to the realities of business. Our approach combines academic excellence with insightful research and exceptional global business connections. We are dedicated to supporting innovation and teaching tomorrow's leaders. Our programmes are designed to equip students to become innovative business thinkers of the future, capable of making a significant impact in their careers and beyond.

Community and networking

As a student at Durham University Business School, you will join a dynamic and supportive community. Our extensive alumni network and strong industry connections provide invaluable opportunities for mentorship, networking, and career advancement. We pride ourselves on fostering a collaborative and supportive environment where students can thrive academically and professionally.

durham.ac.uk/business/about

A legacy of excellence

Durham University Business School, founded in 1965, stands as one of the UK's longest-established business schools. We are proud to be an integral part of Durham University, a prestigious institution founded in 1832 with over 190 years of history. Durham University is a globally outstanding centre of teaching and research excellence, known for its unique and historic setting and its collegiate community of extraordinary people.

Our University is also a member of the Russell Group of 24 leading, research-intensive UK universities.

Triple accreditation

The Business School has the privilege of holding the prestigious triple accreditation (AACSB, AMBA and EQUIS). This places us among an elite group of business schools worldwide, recognised for meeting rigorous standards of excellence in education, research, and operations.

One Business School - Two locations

The Business School operates across two state-of-the-art locations: Mill Hill Lane and the newly opened Waterside building in the heart of Durham City Centre. The impressive 11,000-square-metre Waterside facility brings a dynamic new space to the School, enhancing its world-class learning environment. Teaching takes place across campus, and staff, students, and visitors have access to both locations.

Introduction to Accounting

Our MSc Accounting programme offers a comprehensive curriculum, in a stimulating learning environment and is designed to equip you with the advanced knowledge and practical skills to excel in the dynamic field of accounting and finance. By choosing to study accounting at Durham, you will be joining a vibrant academic community. The Department of Accounting at Durham University Business School is renowned for its cutting-edge research, world leading faculty, and strong industry connections.

durham.ac.uk/business/about/departments/accounting

Professional Exemptions

Welcome to the MSc in Accounting at Durham University Business School. Our innovative MSc Accounting programme is designed to help you develop an in-depth understanding of the theory and practice of accounting, as well as the critical thinking skills so valued by employers. And with professional exemptions from the ACCA and CIMA, this is an ideal programme to choose if you're looking to pursue a career in accountancy or business more broadly.

Dr Nor Zetty Abdul Kadir, MSc Accounting Programme Director.

A World Top

100

University

QS World University Rankings 2026

MSc Accounting offers an ideal opportunity to gain specialist accounting knowledge and professional accountancy qualification exemptions in a supportive environment, tailored towards those with no prior accounting knowledge.

Isobel Schofield, MSc Accounting
Nationality: British

MSc Accounting

Entry requirements

The MSc Accounting programme is designed for new or recent graduates in any subject or discipline, no previous study in accounting is necessary. Accounting undergraduate students, or students who have completed a professional accounting qualification may find some content of this programme overlaps with their prior learning. You will need a UK first or upper second-class honours degree or international equivalent.

If English is not your first language, please note that you must meet a minimum overall standard in a recognised test of English. Further details of these tests and minimum overall scores are available on our [MSc Accounting webpage](#).

5th in the UK

for Accounting and Finance

Guardian University Guide 2025

Enrichment opportunities

We offer a range of opportunities designed to enhance your academic experience and professional development. These activities provide valuable skills, expand professional networks, and offer practical insights that complement the formal curriculum.

Opportunities on our MSc Accounting programme include:

- Summer School
- Dissertation Abroad
- Practitioner Insights - Guest Speaker Programme

For more information on enrichment opportunities see page 32.

Introduction to Economics

Economics at Durham inspires and challenges our students, helping them become critical thinkers and confident problem solvers ready to take on real-world challenges. Our graduates are well-prepared for global careers across diverse sectors, leading businesses or working in finance, government, and multinational companies. Engaging coursework, dedicated resources, and expert faculty mentorship create a supportive learning environment where students thrive academically and personally, reaching their full potential.

The Department of Economics at Durham University Business School is internationally recognised for excellence in both teaching and research. Our research centres produce impactful work that informs policy, drives innovation, and influences business practice around the world.

durham.ac.uk/business/about/departments/economics

Our Masters in Economics programmes offer rigorous training at the frontier of research to meet the most advanced requirements of employers in the global job market. Whether you are considering a career in industry, policy making institutions or academia, the analytical and quantitative skills gained here at Durham would be an invaluable asset.

Dr Vsevolod Ostapenko, MSc Economics Programme Director.

4th in the UK
for Economics
Guardian University Guide 2025

Masters in Economics

Entry requirements

- For Masters in Economics programmes you will need:
- The equivalent of a UK upper second-class single or joint honours degree in Economics, Finance, Mathematics, Statistics, Physics, Computer Science or Engineering.
 - If your degree is in another subject, you will also require good grades in two Mathematics/ Statistics/Econometrics modules.
 - Applicants with relevant Economics-related work experience may be considered even if they narrowly miss the academic requirements.
 - If English is not your first language, you must meet a minimum overall standard in a recognised test of English. Further details of these tests and minimum overall scores are available on our [MSc Economics webpages](#).

**Always refer to the website for the latest, most up to date entry requirements.*

Apply online

For further information on how to apply and the most up-to-date course fees please visit our [MSc Economics webpages](#).

We offer a comprehensive package of scholarships celebrating and rewarding exceptional candidates applying to our Masters programmes.

[durham.ac.uk/business/programmes/masters/scholarships](#)

Pre-sessional modules:

To support your learning, we offer an online pre-sessional module, Introduction to Economics. Covering six key topics, it provides the essential tools to prepare you for advanced Microeconomics and Macroeconomics. This is especially valuable if you are new to Economics.

This pre-sessional is self-paced and available to all students several months before teaching begins. It includes video lectures with reading lists, quizzes to check your understanding, and practice exercises with solutions.

To build the strong quantitative foundation required to study at Masters level, all students will take a compulsory non-credit bearing Mathematics and Statistics module (details TBC), covering key concepts from Calculus, Linear Algebra, Statistics, and Probability needed for Masters-level Economics.

Software for data analysis

The skills of collecting, analysing, and interpreting data are a critical component in the toolkit of a contemporary economist. During your MSc studies, you will learn how to handle data and undertake empirical research using **R**, **Python** and **STATA**.

Our programmes also offer two optional modules focused on practical data science, with applications to economic problems: Data Analytics and Machine Learning.

You may also benefit from taking short extracurricular training courses in valuable programming skills to support advanced research and strengthen your career prospects.

Programmes

Our Masters in Economics programmes provide an in-depth understanding of economic theory and methods of applied analysis. We offer three routes:

- **MSc Economics**
- **MSc Environmental and Natural Resource Economics**
- **MSc Behavioural Economics**

Core modules

Core modules:	MSc Economics	MSc Environmental and Natural Resource Economics	MSc Behavioural Economics*
Advanced Microeconomics	●	●	●
Advanced Macroeconomics	●	●	
Econometric Analysis	●	●	●
Advanced Topics in Behavioural Science			●
Dissertation	●	●	●
Environmental and Climate Economics		●	
Natural Resource Economics		●	
Behavioural Economics			●
Experimental Economics			●

* MSc Behavioural Economics core modules are subject to University approval

Optional modules

You will then choose between two and four modules, from a list which has typically included:

- Development Economics
- Game theory
- International Trade and Finance
- Money and Banking
- Microeconometrics*
- Time-Series Analysis*
- Environmental and Climate Economics*
- Natural Resource Economics*
- Behavioural Economics*
- Experimental Economics*

Students on our flagship MSc Economics can boost their industry insight and employability by choosing one of two specialised finance modules:

- Capital Market Development
- Market Microstructure

Our MSc Behavioural Economics also offers a distinctive set of additional optional modules that blend Economics and Psychology, providing a unique interdisciplinary view of decision-making:

- Behavioural and Neurofinance
- Behavioural Insights for Public Policy
- Power and Influence

Visit our website for the latest and complete list of modules.

City of London field trip

The London field trip offers a unique opportunity to meet senior professionals in finance, including chief economists, chief risk officers, and other leaders. Gain insights into industry trends, global market challenges, and career opportunities, while networking with top professionals. Previous visits have included JP Morgan, the Bank of England, Bank of China, Crédit Agricole, Sage, Cavendish, and more.

Enrichment opportunities

We offer a range of additional opportunities designed to enhance your academic experience and professional development. These activities provide valuable skills, expand professional networks, and offer practical insights that complement the formal curriculum. Opportunities on our MSc Economics programmes include:

- Summer School
- Dissertation Abroad
- Practitioner Insights - Guest Speaker Programme

For more information on enrichment opportunities see page 32.

● Choice of one of these elective Modules

Optional modules have included

- Digital Banking
 - Blockchain and Cryptocurrencies
 - Cybersecurity in Finance
- Fixed Income Securities
 - Equity Valuation
 - International Study Tour

For a full list of elective modules by programme visit our programme page.

Enrichment and international opportunities

We offer a range of opportunities designed to enhance your academic experience and professional development. These activities provide valuable skills, expand professional networks, and offer practical insights that complement the formal curriculum. Opportunities on our MSc Finance programmes include:

- Summer School
- Dissertation Abroad
- International Study Tour
- Practitioner Insights - Guest Speaker Programme

For more information on enrichment and international opportunities see page 32.

While you study with us you will also have the opportunity to be involved in

- Investment Club
- The Trading Challenge
- The Stock Pitch Competition

These initiatives give you the chance to put your financial skills to the test and enhance your CV.

The Certificate in Engagement with Practice in Finance

The programme enhances the MSc Finance degree by combining technical training with soft skills through activities like Bloomberg certifications and industry-led events. Core components such as coding bootcamps, CFA training, and the student-run Investment Club build practical experience and professional competencies. This programme is open to all Masters students studying Finance.

Additional resources

The School has made significant investment in database resources including Thomson Reuters, Datasteam and Orbis. These state-of-the-art databases give you the opportunity to interrogate the financial records of millions of companies worldwide and add valuable insight to your research.

Trading laboratory

As part of our provision of a wide range of software and databases, we offer training on our Bloomberg terminals for accessing economic and financial data. Along with Zero to Hero intensive training in Python, SQL, C/C++ and VBA.

MSc Islamic Finance

Entry requirements

The MSc Islamic Finance programme is designed for new or recent graduates. However, it may also be of interest to those who already have practical experience in the field of finance. Prospective candidates must hold qualifications equivalent to a UK first or upper second-class honours degree in any discipline.

If English is not your first language, please note that you must meet a minimum overall standard in a recognised test of English. Further details of these tests and minimum overall scores are available on our [MSc Islamic Finance webpage](#).

Nationality: Moroccan

Joint programmes

Our innovative joint programmes are collaboratively designed by multiple departments to provide a comprehensive and interdisciplinary learning experience. By leveraging the unique strengths and expertise of each department, our programmes offer diverse perspectives and skills, ensuring that our participants are well-equipped to excel in their chosen fields.

Introduction to Business Analytics

Our MSc in Business Analytics brings together the expertise of the Business School and the Department of Computer Science. The Department of Computer Science delivers high quality teaching and research and their programmes have been specifically designed to be demanding and intellectually challenging, whilst at the same time being scientifically, technologically and industrially relevant.

MSc Business Analytics

Entry requirements

The programme is designed for graduates from either a business background (with evidence of strong quantitative content) or a tech background (including numerate scientific disciplines with strong computational content). You will need a UK first or upper second-class honours degree or international equivalent in one of the following:

- Business
- Computer Science
- Related subject with strong quantitative component

If English is not your first language, please note that you must meet a minimum overall standard in a recognised test of English. Further details are available on our **MSc Business Analytics webpage**.

Apply online

For further information on how to apply and the most up-to-date course fees please visit our **MSc Business Analytics webpage**.

We offer a comprehensive package of scholarships celebrating and rewarding exceptional candidates applying to our Masters programmes.

durham.ac.uk/business/programmes/masters/scholarships

Enrichment opportunities

We offer a range of opportunities designed to enhance your academic experience and professional development. These activities provide valuable skills, expand professional networks, and offer practical insights that complement the formal curriculum.

Opportunities on our MSc Business Analytics programme include:

- Practitioner Insights - Guest Speaker Programme

For more information on enrichment opportunities see page 32.

Programme overview

Our one-year, full-time MSc Business Analytics programme is designed to equip you with the skills to leverage AI and data-driven approaches for strategic decision-making. You will explore the role of AI-powered business analytics within organisations and develop expertise in extracting insights from data through machine learning, big data algorithms, and natural language processing techniques for enterprise intelligence and large-scale information analysis.

Core modules

- Introduction to Business Analytics
- Data Analytics in Action
- Learning from Data
- Managing Data-Driven Innovation
- Natural Language Analysis
- Retail Analytics
- Data Analytics for Strategic Decision-Making

International Field Trip

The field trip offers experiential learning and an inside perspective on operating globally. You will visit data-intensive organisations, analyse them using a structured approach, and present your findings to company representatives. With travel and accommodation fully funded by the University*, this is an excellent opportunity to apply academic learning to real-world challenges, enhance employability, and experience new cultures and ways of working.

*** Visa support documentation will be provided by the School, however, if you are unsuccessful in obtaining a visa for the field trip, no refund on fees will be provided.**

Business Analytics Project

You will investigate an in-depth issue which is applicable and relevant to business analytics and will enable you to incorporate your skills and learning from previous modules. You can pursue your project in two ways, either by working with a host organisation or by producing an issue-led investigation which is not focused on just one organisation, but instead examines a specific business analytics issue.

Durham's connections to industry and its alumni network means there's ample opportunity for real-world collaborations and career support, crucial to making a meaningful impact in the field of Business Analytics.

Introduction to MSc Law and Finance

Our MSc in Law and Finance combines two highly technical and evolving sectors into one distinctive study programme. Taught full-time over one year in the historic city of Durham, this innovative programme is a collaboration between Durham University Business School and the Department of Law. This interdisciplinary approach ensures that students develop a thorough understanding of both the theoretical foundations and practical principles of Law and Finance.

durham.ac.uk/departments/academic/law/msc-in-law-and-finance

Federico Lupo-Pasini, Programme Director,
Department of Law.

Anthony Kyiu, Programme Director,
Durham University Business School.

MSc Law and Finance

Entry requirements

The MSc in Law and Finance is designed for graduates from a law or a relevant business degree such as accounting, finance, or economics. You will need a 2:1 honours degree or equivalent in law or a relevant business degree such as accounting, finance, or economics.

If English is not your first language, please note that you must meet a minimum overall standard in a recognised test of English. Further details of these tests and minimum overall scores are available on our **MSc in Law and Finance webpage**.

Apply online

For further information on how to apply and the most up-to-date course fees please visit our **MSc Law and Finance webpage**.

durham.ac.uk/study/courses/law-and-finance-m1kk09

We offer a comprehensive package of scholarships celebrating and rewarding exceptional candidates applying to our Masters programmes.

durham.ac.uk/business/programmes/masters/scholarships

Programme overview

The MSc in Law and Finance combines two highly technical and evolving sectors into one distinctive study programme. Ideally suited to aspiring financial lawyers or regulatory compliance professionals with a limited background in mathematics and statistics, the course provides an understanding of the fundamental legal and financial concepts needed to work in the modern financial industry. By the end of the course, you will be fluent in not only the regulatory aspects that govern the world of finance, but also the core financial theory that underpins capital market and banking transactions and the financing of businesses more generally.

Core modules

- Financial Regulation
- Capital Markets Law
- Fundamentals of Finance
- Corporate Finance (MSc Finance)
- Case Study in Financial Regulation

Optional modules

Example optional modules have typically included:

- Advanced Issues in Corporate Law
- Artificial Intelligence and Finance
- International Finance Law
- Climate Finance
- FinTech Regulations

Enrichment opportunities

We offer a range of opportunities designed to enhance your academic experience and professional development. These activities provide valuable skills, expand professional networks, and offer practical insights that complement the formal curriculum.

Opportunities on our MSc Law and Finance programme include:

- Practitioner Insights - Guest Speaker Programme
- Two-day London tour visiting regulators, financial institutions and law firms.

For more information on enrichment opportunities see page 32.

Enrichment and international opportunities

We offer a range of enrichment opportunities designed to help you stand out from the crowd.

We're proud of our strong international connections. Helping you get an inside perspective is a key part of the programme. That's why we offer a range of opportunities to help immerse you in a country's business and academic environment, make new contacts and stand out in a competitive job market. International opportunities include:

32

33

Summer School

During the summer, you will have the chance to attend a Summer School at one of our esteemed European partner institutions and build your professional network. These partially self-funded, competitive programmes typically take place for up to three weeks in June, July, or August, following the exam period. They cover a broad spectrum of topics designed to enhance the knowledge you've gained at Durham. Please note that due to limited availability, all students must apply to secure a spot in these highly sought-after Summer Schools.

International Study Tour

The International Study Tour is a partially self-funded, intensive, optional module for MSc Management and MSc Finance students. The module runs throughout the second term, with a five-day international trip taking place during the term. The programme provides the opportunity to visit a series of prestigious global businesses, giving those on the programme an excellent opportunity to be exposed to the challenges of global business and an international awareness required for today's competitive global environment.

Dissertation abroad

MSc students at Durham University Business School have the opportunity to apply to complete their Dissertation (research project) at one of our prestigious European partner institutions, from June to September. This partially self-funded programme is highly popular among our students and will allow you to experience living abroad, expand your network, and gain insights into campus life in a different country. Participating in this programme not only enhances personal skills but also boosts employability by showcasing adaptability, resilience, communication skills, and a global mindset. The international team at the Business School will support you throughout the process, from application to departure, ensuring a smooth and enriching experience.

Practitioner insights — Guest Speaker Programme

An integral part of the programme is the engagement with the world of practice. Our Guest Speaker Programme provides the opportunity to enjoy presentations by leading international academics and practitioners within your chosen area of interest. Past speakers have included representatives of major global multinationals and leading scholars, combining critical and progressive thinking with practical insights.

Careers support

Whether you want to work for an organisation, for yourself, or go on to further study, our career development support and guidance offers you the opportunity to build your employability skills.

34

35

Our Team offer a wide range of opportunities to help you develop the skills necessary to build a successful future career. With its own dedicated postgraduate careers team we offer a full range of careers services, which are internationally-focused and reflective of the global locations in which our students want to work. Created to complement the events, workshops and fairs organised by the University's Careers and Enterprise Centre, we will support you through your programme and beyond. You will be given information about the careers programme during your first few weeks at Durham, including access to the Business School's online Career Development Portal.

Our service is designed to give you the opportunity to:

Develop the essential skills demanded by international recruiters through interactive workshops.

Network with businesses and engage with international recruiters in a range of activities, presentations and events.

Access a huge range of resources, international jobs board, CV and assessment technology and career webinar series.

Individual career opportunities

Appointments with our Career Consultants give you the opportunity to develop your CV, improve your job search strategy and prepare for interviews. The team also offer practice interviews and assessment exercises to help you with your preparation.

Connecting with business

There are many opportunities throughout the year. From engaging with organisations and alumni to further enhance your knowledge and skills, to meeting with a range of recruiters via workshops, presentations and fairs. Working in partnership with the University's Careers and Enterprise Centre, you can engage with some of the UK's leading employers as well as international employers using video conferencing technology in the Business School.

Supporting your studies

At Durham you will benefit from all the resources you'd expect from a leading business school. From the latest IT and library services to a virtual learning environment, you'll have everything to hand to make the most of your learning.

[durham.ac.uk/
colleges-
and-student-
experience](https://durham.ac.uk/colleges-and-student-experience)

Our colleges

At Durham, you'll join one of our 17 Colleges which make up our unique collegiate system. Each College has its own distinct character and traditions, forming the heart of your student experience. Even if you choose not to live on site, you'll have full access to all your College has to offer. Some Colleges are exclusively for postgraduates, while others welcome both postgraduates and undergraduates, and are made up of students from different disciplines. Your College provides vital support and a sense of belonging, alongside a vibrant array of societies, social, and cultural activities, ensuring your time in Durham is truly enriching.

Accommodation

Our College accommodation at Durham University is reasonably priced and good quality. If this is not for you, we can help you find local private accommodation to suit your needs. We will provide you with more specific details upon application.

durham.ac.uk/colleges

Keeping students safe

We take the safety and wellbeing of our community seriously and work closely with a range of external partners in matters of health and safety.

Sports facilities

Sport is an important part of Durham life and our facilities are second to none. From our British Rowing Performance Centre to the British Fencing Centre, and boasting teams which compete in the England Hockey National leagues and the British Universities and Colleges Sport (BUCS) competitions, we can offer something for everyone. For more information, visit [Team Durham](https://teamdurham.com).

[durham.ac.uk/
teamdurham](https://durham.ac.uk/teamdurham)

Cost of living

Living in Durham City is generally more affordable compared to larger UK cities, making it a popular choice for students. The overall cost of living depends on factors such as accommodation type, lifestyle, and whether meals are included. Students can choose between university-managed accommodation and private housing, with a range of options to suit different budgets. Everyday expenses typically include groceries, utility bills, transport and leisure activities. With the city's compact size, many students find it easy to get around on foot or by bike, which helps keep travel costs low. Overall, careful budgeting can help students manage their finances comfortably while studying in Durham.

The Durham MBA

Are you considering the next step in your career?

Our MBA programmes are designed to provide you with everything you need for success in the business world: agile analytical thinking, global awareness and strong communication skills. With close connections to many leading organisations, we are both informed by and immersed in the dynamic commercial landscape. We offer two ways to study the MBA.

The Durham MBA (Full-time)

Ranked 86th in the world (Financial Times Global MBA Ranking 2025), combining theory and practical business experience, the Durham MBA (Full-time) is both challenging and inspiring, the programme is continually enhanced to ensure you perform at the cutting-edge of your chosen profession. Studied over 12 months, you will be encouraged to confront new ideas, explore innovative management theories and apply your learning to the world of practice.

durham.ac.uk/business/programmes/mba/full-time

One of the most rewarding aspects of the programme was the opportunity to learn alongside a diverse and truly international cohort. Collaborating with colleagues from around the world gave me invaluable insight into global markets, cultural approaches to problem-solving, and the potential of international teams to innovate and deliver impact.

Melanie Bishop,
Full-time MBA Student
Nationality: British

The Durham MBA (Online)

Ranked 9th in the world (Financial Times Online MBA Ranking 2025), the Durham MBA (Online) will enhance your key business and leadership capabilities to enable you to achieve your career aspirations whilst you continue in full-time employment, so you can apply what you learn directly into the organisation you work for.

It is studied over two years, part-time and flexibility is very much at the heart of the Durham MBA (Online). You can choose to study entirely online or take a more blended approach and attend some modules at the Business School in Durham.

durham.ac.uk/business/programmes/mba/online-mba

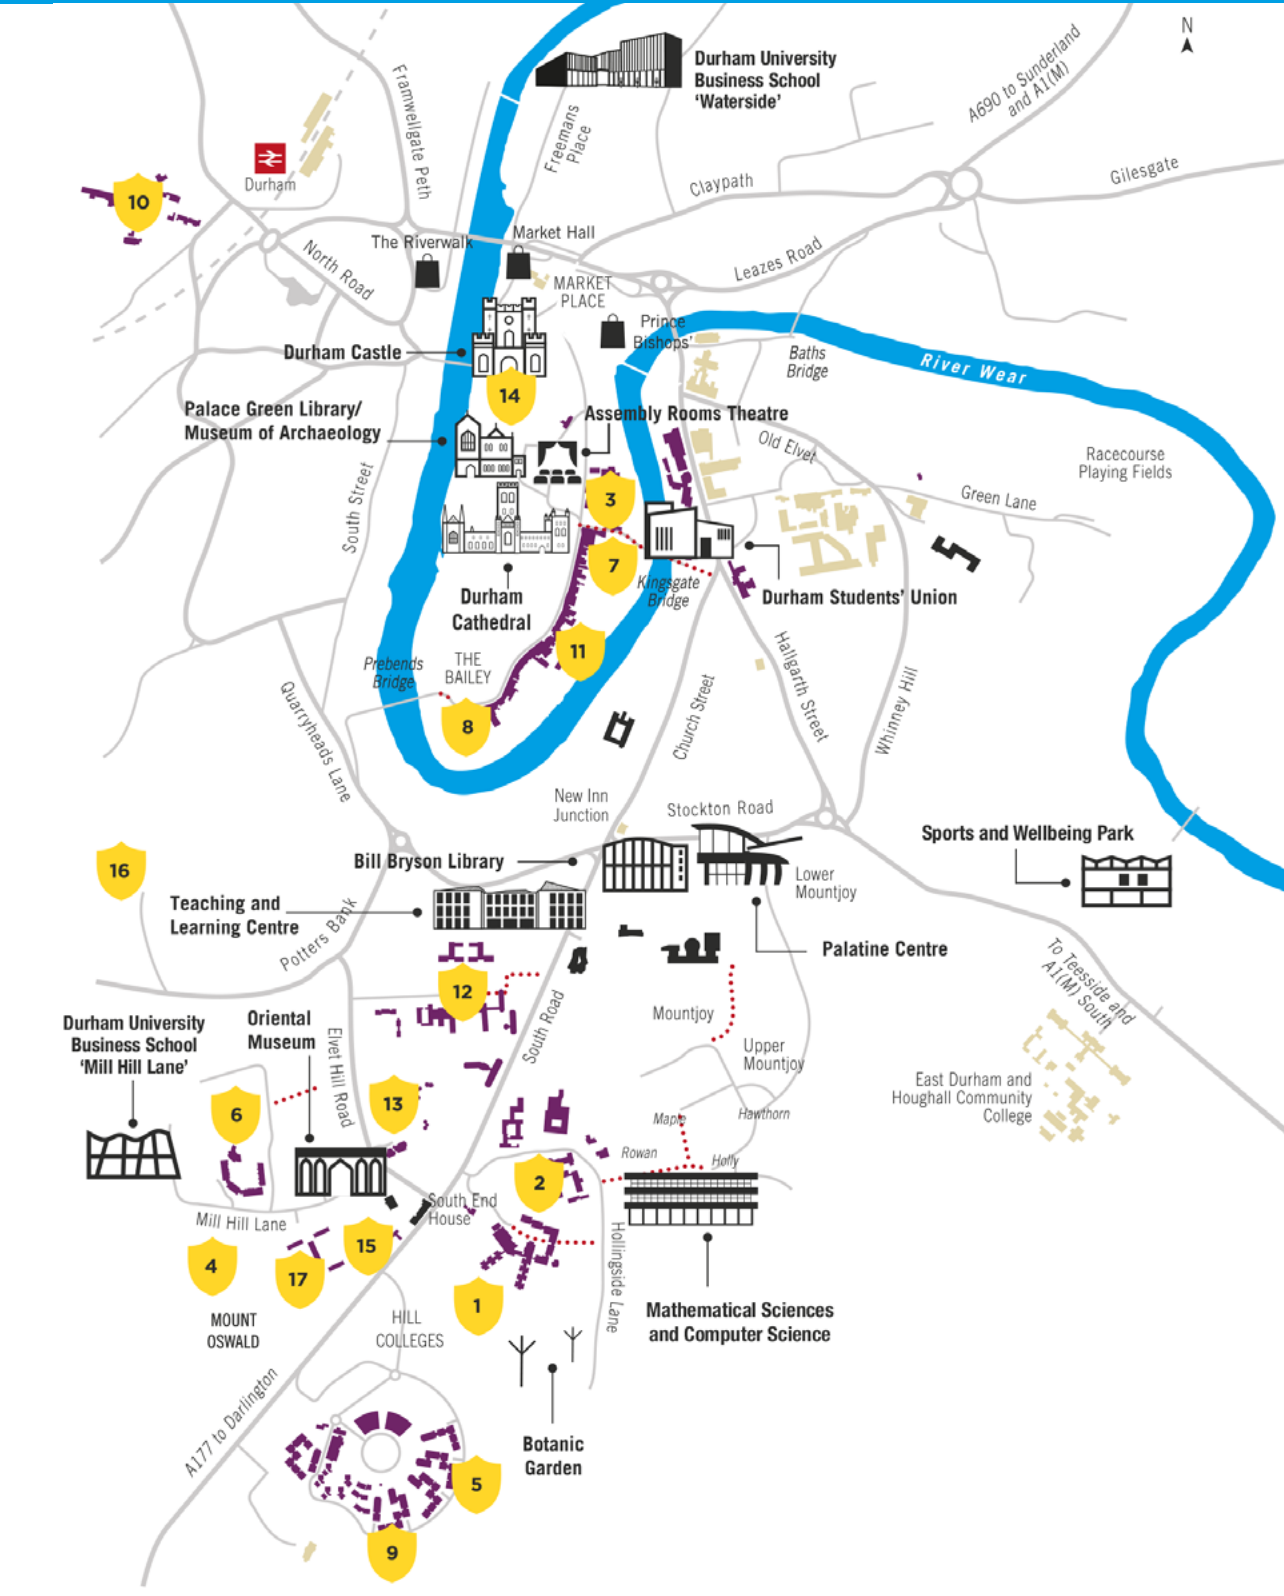

I feel well-supported and connected. The team is responsive and proactive, creating an engaging learning experience even from afar. Attending the taught modules at the Business School in Durham and an international module in France enriched my learning and helped me build lasting connections and explore new perspectives.

Phornroong Rapipaiboonpipat,
Online MBA
Nationality: Thai
