

## GRADUATE PROFILE:

# RACHEL

GEOGRAPHY  
JOSEPHINE BUTLER  
GRADUATED: 2014

## WHAT DO YOU DO NOW?

Financial Services Management consultant at Accenture (I'm also a Teach First Ambassador having completed the Teach first graduate scheme 2014-2017)

## HOW DID DURHAM HELP TO PREPARE YOU?

The main thing that prepared me for the world of work was actually having part time Jobs whilst I was studying - these were invaluable to me getting through assessment centres and tough grad interviews! Some examples of the part time jobs that I had whilst at Durham were working behind my college bar, working part-time for the Times student newspaper and working for Durham's Student Access and Recruitment Team. Without Durham - I wouldn't have had these job opportunities. Being able to study alongside these jobs was what prepared me for my current career.

## WHAT'S YOUR FAVOURITE DURHAM MEMORY?

It's hard to pick one, but a few of my favourite memories were the fancy dress college bar crawls (ending up in klute of course!), summers spent along the river and our college's summer balls and formals!
