

Terrific Tree Hunt

Start in the Children's garden then follow the path down the garden to the monkey puzzle, map no 21. From there cross the ponds and finish at the "Vessels of life" sculpture. Along the way you will meet some of **OUR** favourite and special trees.

Hedgehog Fir

My shoots look like tiny hedgehogs.

Norway Maple

My leaves are some of the first to change colour in the autumn.

Hazel

You can see my hazelnuts all over the path, squirrels love me.

Oak

Look at my funny leaves, they have 'lobes' just like your ears!

Walnut

I'm one of the oldest trees in the garden.

Monkey Puzzle

People think my trunk looks like a huge elephants foot!

Dawn Redwood

Feel my soft reddish brown trunk and my leaves are soft as feathers.

Katsura tree

My leaves smell like burnt sugar or candy floss, pick some up ...

Tibetan Cherry

My bark is so shiny and so smooth, feel me...

Why not make a sketch of **YOUR** favourite tree on the back of this sheet?
