

# Make a Shadow Puppet Tiger for Lunar New Year

1. Print out this sheet on paper or card and cut out\* the three pieces for your Tiger.
2. Decorate the pieces as colourfully as you can. You can collage, draw patterns or colour them in. Don't forget to put an eye on!
3. If you want to, you can cut off the tail from the template and make your own from a pipe cleaner or string and tape it onto the back.
4. Use split pins\* to join your pieces together and tape lollipop or thin sticks onto the back of the head and the tail end.
5. Now you should be able to make your Tiger move!

**\*Always ask for an adult's help when using scissors and split pins**

We would love to see your shadow puppets. If your parents are happy with this they can email us at [4Schools@durham.ac.uk](mailto:4Schools@durham.ac.uk) or they can post them on Twitter tagging @dulearning.
